Dear Church Family and Friends,

Adventure stories are captivating! Exploring uncharted regions and making new discoveries stir the human spirit.

Antarctica was being explored in the early 1900's. Bitter cold, savage weather, and pack ice made exploration extremely difficult. Add to this the

competition between nations...to set themselves apart from all the rest. Since no one had reached the South Pole yet, that took center stage. The race was on!

The two competitors were Finland and Great Britain. Their approaches were very different. No area revealed this difference more than the type of transportation they chose. The British used motorized sleds and ponies, while the Fins used dogs and dog sleds.

The motorized sleds broke down. The hooves of the ponies sank in the snow and ice. An added burden was the food for the ponies that had to be hauled. The Brits did make it to the South Pole, but died on the trip back.

On the other hand, the Finnish team used dogs. Because they were lightweight, the dogs were able to run on top of the snow and ice. There was no need to carry food for the dogs, because seals and penguins were killed and eaten as they traveled. Not only did they arrive at the South Pole first, but all nineteen team members survived.

The difference? Amundsen's team used a method of transportation **designed** to fit the environment, while Scott's team did not. The difference was life and death.

The greatest adventure of all is to follow Jesus! *God designed us to know and follow Him.* The entire Bible reflects this fact. Easter confirms it! When our hearts and lives line up with God's grand design, we are changed!

He is risen!

Love, Pastor Mike
